SKILLS / TECHNOLOGY STACK

- o Source Code Management Github, Bitbucket, AWS CodeCommit, Unfuddle
- CI/CD Tools: CircleCl, Bitbucket, AWS CodeCommit, AWS CodeBuild, AWS CodePipeline, AWS CodeDeploy, Atlantis(for Terraform)
- Deployment Lambda, S3, EC2, ECS
- **Testing**: Postman, J-Meter
- Monitoring, Logging & Observability: AWS Opensearch, Sumologic, Datadog, Grafana
 Cloudwatch, Loggly, Cloudtrail
- Alerting Pagerduty, AWS SNS
- Security: AWS Organizations, AWS Service Control Policy, AWS Verified Access, GuardDuty,
 SecurityHub, Inspector, SSO, IAM, Amazon Certificate Manager, Tfsec, Talisman, Vanta
- o Compliance ISO-27001, SOC-2, HIPAA, GDPR
- o Infrastructure as a Code Cloud Formation Template and Terraform
- Storage & Database: S3, Dynamodb, AWS Opensearch Search, RDS Aurora [Mysql Compatible],
 ElasticCache
- Networking & CDN: VPC, CloudFront, Route 53, Application Load Balancer
- o Collaboration and Planning Jira, Confluence, Miro Board, Slack, MS Teams

EXPERIENCE

Heyjobs GmbH, Germany - *Infrastructure Engineer*

JAN 2023 - PRESENT

- Research and explore the latest trends in AWS Cloud & DevOps and implement them.
- Infrastructure Management using Terraform
- Improving the SRE (Monitoring) and FinOps (Cloud Billing) verticals.
- Improve Security Standards, Securing Compliance and Certifications(ISO, SOC2) and
- Other General DevOps Practice.

Leadsquared, Bangalore - Sr. AWS DevOps Engineer

OCT 2020 - JAN 2023

Along with General DevOps Practices, other major responsibilities included:-

- Helped the organization to become **Unicorn** and solved challenges from the DevOps side.
- Designed multiple Automatic, Self Healing Systems to handle Cloud Operations.
- Setting up New Regions on AWS Cloud for Business expansion (Asia, Europe, US, India)
- Talent Bar Raiser helped in expanding the Team from 4 to 40+ in Cloud Engineering.
- Helped in creating new verticals under Cloud Umbrella (SRE, FinOps, DBOps, CloudSec)
- Research and explore the latest trends in AWS Cloud & DevOps and implement them.
- Designing the Monitoring Tools by closely working with the SRE Team.
- Developing the Security Tools/Utilities by closely working with the Security Team.

Inube, Bangalore - R&D Lead (Full Stack)

JAN 2023 - PRESENT

- Breaking up of Monolithic Architecture and Implementing Micro Service Architecture on AWS [Dotnet Core 3.1, React JS, RDS].
- Setting up AWS for the company from Scratch till the go-live.
- Managing all the Servers for Prod, UAT, Test, Dev.
- Design and Implement CI/CD Pipelines by using AWS DevOps Tools such as Code Pipeline, Code Build, CodeDeploy, etc.
- Code Release Manager for AWS Environment.
- Automating the Infra Setup on AWS using Infrastructure as a Code [laC]
- Managing the Security at AWS Level and as well as in Application Code Level.
- Ensuring the Security Standards/Compliance at AWS and convincing/interacting with the Client's Info Security Team.
- Create RCA Reports for Clients and Internal Management Team.

AWARDS

- → Spotlight Award Feb 2022
- → Star of the Quarter Jan 2022
- → Spotlight Award Apr 2021
- → Spotlight Award Feb 2021

EDUCATION

- → B.I.E.T, VTU, Karnataka (2019)
 - Computer Science & Engg.
 - First Class Division (7.05 SGPA)
- D.S.V.N, CBSE, Gurgaon (2015)
 - Non-Medical with Computer
 - 85%

PROJECTS

- Designed & Developed Launching of Scheduled Based RDS Aurora Replica in order to save the cost of running replica 24/7. [Python, DynamoDb, Cloudwatch, SNS, RDS, Grafana, Sumologic, CFT, EventBridge, Lambda]
- Automated the process of AWS Aurora and MySql Slow Query Logs pushed to Sumologic using Lambda [Python, DynamoDb, CloudWatch, SNS, RDS, Grafana, Sumologic, Cloud Formation Template].
- Designed & Implemented the system for AWS Elasticache Redis Slow Logs pushed to Sumologic [Python, Amazon ElastiCache, SNS, VPC Lambda, Grafana, Sumologic, Cloud Formation Template].
- Designed & Implemented the system based on Custom Metric Solution in CloudWatch for finding the aggregated CPU Utilization of all the EC2's behind all 3 Types of Load Balancers [Application, Classic and Network] for Spot.io Instances. [Python, ALB, CLB, NLB, SNS, CloudWatch Custom Metrics, Grafana, Cloud Formation Template]
- Designed & Implemented the system for Amazon Elasticsearch Service (ESS) Slow Logs pushed to Sumologic. [Python, Amazon Elasticsearch Service, SNS, CloudWatch, Grafana, Sumologic, Cloud Formation Template]
- Designed & Developed Internal Security Tool to generate reports for Vulnerable Security Group List from Multiple Accounts. [Python, AWS Security Groups, IAM, SNS, S3, AWS Organisations, EC2]
- Designed & Developed Internal Security Tool to generate reports for all the Record Sets for a particular Hosted Zone ID in Route 53 [Python, Route 53, EC2, S3].
- Designed & Developed Internal Tool to generate the List of Redis Keys based on defined patterns by using batches in Python. [Python, Amazon ElastiCache- Redis, EC2]
- More Projects www.notfromiit.com/cv

Extra Curricular Activities

- First Prize in Short Movie Making
- Presented Paper on "Prediction of EarthQuake" selected as BEST IDEA of 2018 by TCS
- Participation in Smart India Hackathon
- Campus Ambassador for a campaign launched by Godrej Pvt Ltd.
- "Best Student" Awardee by College for the 2015-19 Batch.
- "Mr. Perfect Student 10/10" Title Awarded by CS&E Dept.
- Won many Fashion Shows at intra, inter and University Level in Karnataka.
- Computer Science Forum Representative
- Winner of College Photography Contests

CERTIFICATION

- Python GOLD Badge HACKER RANK
- Certified Network Security Speciality ICSI
- Sumologic Certified SUMO LOGIC
- Designing Event-Driven Architecture AWS
- Lambda Foundation AWS
- Architecturing Serverless Application AWS
- Technical Essentials AWS
- AWS Machine Learning Engineer (UDACITY)
- Linux Essentials CISCO
- Big Data on AWS UDEMY
- Docker Challenge DOCKER
- Microsoft Ignite Challenge MICROSOFT
